#### Financial review

Although management was encouraged by a continuation of the second half of 2020's positive trends, the Covid-19 crisis continued to significantly affect results during the first half of 2021. The pandemic brought disruption across the business from the closure of physical stores for extended periods to significant supply chain interruptions.

Revenue increased 24%, from €27.5 million to €34.2 million. By channel:

- Retail revenue, year on year, increased 31%, approximately 35% on a like-for-like basis
  - By region, North America and Asia both showed strong recovery as Covid-19 restrictions eased, outperforming EMEA.
- Wholesale revenue decreased by 8%, impacted by both invoicing timing differences and Covid-19 related supply chain disruption

Gross margin increased from 50% to 59%, driven by a greater proportion of full-price sales and benefitting a reversal of inventory provisions.

Operating expenses overall increased from €34.9 million in the 2020 period to €37.1 million in 2021. This was driven by additional operating expenses of the new La Perla Beauty business.

Depreciation, amortization and write-off decreased from  $\in 10.1$  million in the first six months of 2020 to  $\in 1.5$ m million for the same period in 2021. The reduction was primarily driven by the full impairment of assets undertaken at the 2020 year end.

The improvement in operating loss resulted from the above factors.

#### Outlook

Given the ongoing Covid-19 situation and the uncertainty in relation to further impact on the economy and consumer spending, the Group cannot adequately determine the future effect on its business. Therefore, La Perla is currently not providing forward guidance. However, La Perla has concluded that it is appropriate to adopt the going concern basis of accounting in preparing the interim results for the six months ended 30 June 2021. Among others, La Perla's financing arrangements include a loan by Tennor Holding B.V. and La Perla Fashion Finance B.V. in the aggregate principal amount of up to €340 million, which does not mature over the next 12 months. The total amount outstanding under this loan stands at €237.0 million as of 30 June 2021, inclusive of accrued interest and fees.

#### COVID-19 impact on global economy, luxury sector and Group's performances

The scale of the financial impact generated by COVID-19 in 2020 and the subsequent recovery has significantly varied by region. Consumers spending recovery in different geographic markets reflects differing local levels of severity of the health crisis and lockdown durations, as well as the extent to which each region is exposed to tourism.

In the first six months of 2021, economic trends were in line with those observed in the latter months of 2020, with first China and then the United States leading the recovery in the luxury sector.

As with other luxury sector players during the first six months of 2021, the Group was still impacted by the effects of the pandemic both in terms of sales and business operations. The regional lockdowns had a continuing impact on the Group's revenue in the first half of 2021, although results are better than the comparable period in 2020.

Despite the positive outlook and trends, the virus is still in active circulation and new variants are emerging which might affect the economic recovery. As new targeted and general lockdown measures might be implemented, it remains difficult to anticipate the trends for the second half of the year.

#### **Business review**

During the six months 2021 Group continued to focus on restructuring process and on COVID-19 consequences on the business.

Six months 2021 revenues amounted to € 34.2 million (six months 2020: € 27.5 million), a 24% reported increase compared to prior year, including sales from the following channels:

	HY 2021		HY 2020	
	€ 000	%	€ 000	%
Continuing operations				
Net sales Boutique	18,046	52,7%	13,674	49,7%
Net sales Outlet	3,675	10,7%	3,407	12,4%
Net sales Online	7,897	23,1%	5,609	20,4%
Net sales Retail	29,618	86,5%	22,690	82,5%
Net sales Wholesale	3,695	10,8%	3,864	14,0%
Net sales Stock	562	1,6%	751	2,7%
Royalties and other income	366	1,1%	226	0,8%
	34,241	100,0%	27,531	100,0%

Increase in revenues of some 24% was driven by boutique sales positive trend compared to previous year period when the Group had to face temporary store closures due to COVID-19 pandemic situations around the globe. Such event caused a drop of volumes sold through the traditional channels and a peak in online sales registered in the first six months 2020.

Wholesale revenues in the first six months of 2021 reached the same level of the six months 2020.

Group' sales increased compared to first six months 2020 and also Group's operating loss registered a more than proportional improvement as a result of a strong restructuring process that has positively impacted Group's performances.

Group net debt as at 30 June 2021 amounted to € 230.7 million (31 December 2020: € 197.4 million) as follows:

	30 June 2021	31 December 2020
	€ 000	€ 000
Long termborrowings	236,965	205,025
Short term borrowings	8	11
Cash and cash equivalents	(6,264)	(7,640)
	230,709	197,396

For additional details on loan terms please refer to Note 18 of the condensed consolidated interim financial statements.

#### Principal risks and uncertainties for the remaining six months of the year

The main risks and uncertainties to which the Group is exposed in the second half of 2021 are described in 2020 consolidated financial statements.

### **Subsequent events**

There are no other significant new events of which the Group is aware of that would affect these condensed consolidated interim financial statements at 30 June 2021.

La Perla Fashion Holding N.V. ("the Company") is a public company with limited liability, incorporated under the laws of The Netherlands on 9 September 2016. The Company's registered office is Schiphol Boulevard 127 1118 BG Schiphol, the Netherlands. The company is registered at the Chamber of Commerce at 66809681.

La Perla Fashion Holding N.V. and its Subsidiaries (hereinafter the "Group") operate in the markets of luxury underwear, swimwear, and make-up (hereinafter the "Business"). The activities of design, production and sale (through retail and wholesale channels) are performed by the Group through its network of subsidiaries.

The direct subsidiaries La Perla Global Management (UK) and La Perla Beauty (UK) are the Principals in all intercompany transactions, purchasing goods from the manufacturing entity of the Group and reselling those to the distributors and the commercial subsidiaries.

The interim condensed consolidated financial statements of La Perla Fashion Holding N.V. and its subsidiaries (the "Group") for the six months ended 30 June 2021 were authorised for issue in accordance with a resolution of the directors on 29 October 2021.

# 2. Accounting policies

### 2.1 Structure of the financial statements and basis of preparation

The condensed consolidated interim financial statements for the half year ended 30 June 2021 have been prepared in accordance with IAS 34 – Interim Financial Reporting, which allows entities to present selected explanatory notes.

The notes do not therefore include all of the disclosures required for a complete set of annual financial statements, and should be read in conjunction with the consolidated financial statements for the year ended 31 December 2020.

The condensed consolidated interim financial statements are presented in euros and all values are rounded to the nearest thousand  $( \in 000)$ , except when otherwise indicated.

#### 2.2 Critical accounting judgments and key sources of estimation uncertainty

Preparation of the condensed consolidated interim financial statements in conformity with IFRS as adopted by the EU requires that management make certain judgements, estimates and assumptions that affect the reported assets and liabilities and the disclosure of contingent liabilities. If in the future such estimates and assumptions, which are based on management's best judgement at the date of the financial statements, deviate from actual circumstances, the original estimate and assumptions will be updated as appropriate in the period in which the circumstances change.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Main estimates made by management in the preparation of the financial statements concern the valuations and useful lives of operating assets, property, plant and equipment, intangible assets, the valuation of trade and other receivables, the amount of inventory provision, uncertain tax positions, contingency provisions and other provisions relating to operations, and assumptions underlying the calculation of lease liabilities, obligations relating to employee benefits, deferred tax balances and financial instruments. The Group also exercises judgment to determine whether any lease extension or termination options are reasonably certain to be exercised or not.

#### 2.3 Going Concern

For the period ended 30 June 2021, the Group reported a total loss for the year of € 23.6 million (six months 2020: loss of € 41.3 million), shareholders' deficiency of € 262.3 million (31 December 2020: € 236.0 million) and retained earnings of € 279.7 million (31 December 2020: € 256.0 million).

The directors have considered the going concern assumption given the current trading of the Group and the funding considerations and have formed the conclusion that it is appropriate to consider that the Company will continue to operate in the foreseeable future. The Group has received a financial commitment from the parent company in writing, that the parent company will provide financial support to enable the Group to meet its financial obligations as they fall due for a period of 12 months from the date of approval of the 2020 financial statements.

In forming their judgment, the directors have also considered the following matters:

- i) During 2020 and 2021, the Company received a letter of financial support from the parent company, Tennor Holding B.V. backed by a debt facility up to € 340 million. As a result, the consolidated entity will have a sufficient funding to enable it to meet its objectives and financial obligations. By end of June 2021, € 237.0 million of funding had been provided and the Directors are confident that Tennor Holding B.V. has the ability to provide all the necessary financial support to the Group in order to reach the result as showed in financial projections. Whilst the Directors do not have visibility over Tennor Holding B.V.'s financial position, they are confident that Tennor Holding B.V. has the ability to provide all the necessary financial support. To date Tennor Holding B.V. has been able to provide financial support when required in support this assessment.
- ii) The consolidated entity reported a net operating cash outflow for the period ended 30 June 2021 of € 22.0 million (six months 2020: € 19.5 million). Management expect operating costs will continue to decrease in the subsequent period as a result of restructuring its operations, which will reduce the negative operating cash flows.

Although the restructuring is still ongoing and therefore includes uncertainties surrounding its implementation, the directors are confident that the continuing reorganisation process will provide positive results in a short period of time allowing the Group to operate in the foreseeable future.

#### 3. Revenue

Revenues of the period amount to € 34.2 million (six months 2020: € 27.5 million) and include sales as follow:

HY 2021		HY 2020	
€ 000	%	€ 000	%
33,875	98,9%	27,305	99,2%
366	1,1%	226	0,8%

#### 4. Cost of sales

	HY 2021		HY 2020	
_	€ 000	%	€ 000	%
Cost of goods sold (raw materials				
and manufacturing costs)	(11,763)	84%	(11,415)	83%
Indirect production costs	(2,279)	16%	(2,276)	17%
	(14,042)	100%	(13,691)	100%

Cost of inventories included in cost of sales amounts to  $\in$  11.0 million (six months 2020:  $\in$  12.5 million) and reversal of write-downs of inventories, which were mainly the result of inventory sales of old products in 2021, amounts to  $\in$  0.8 million (six months 2020:  $\in$  3.5 million of write down).

# 5. Impact of COVID-19 on condensed consolidated interim financial statements

The impacts arising from the COVID-19 pandemic were recognized in the income statement for six months 2021 and 2020 and essentially affect recurring operating income. In particular, the costs related to health measures put in place (purchases of hand sanitizer and face masks, exceptional measures for regularly disinfecting premises, etc.) have been accounted for as recurring expenses.

During the period the group benefited from different Government grants in the form of job retention scheme, personnel costs reductions, business rate relief and contributions to rents and for health measures put in place.

The rent concessions negotiated with lessors due to the consequences of the COVID-19 pandemic were immediately recognized in the income statement as negative variable lease payments rather than as an amendment to the associated leases. This accounting method complies with the simplification measures provided for in the Amendment to IFRS 16 – Leases, issued by the IASB on May 28, 2020, and adopted by the European Union on 9 October 2020.

The carrying value of trade receivables approximates their fair value after an accrual for bad debt provision amounting to  $\in$  1.2 million (31 December 2020:  $\in$  1.3 million). Before accepting any new customer, the Group uses an external resource to assess the potential customer's credit quality and financial reliability.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

Movement in bad debt provision:
